Celebration Cake Menu

Listed below, is a guide to how many portions our celebration cake sizes serve. Our sizes are all based on dessert sized portions, roughly (1" x 2" x 5"). If you wish to serve your guests finger size portions (1" x 1" x 5") please double the recommended serving sizes. For our cupcakes, the various sized batches are also listed. You will also see all our starting prices for our celebration cakes and cupcakes, as well as pricing for additional decoration options.

Our flavours and fillings are also listed below. For our multi-tiered cakes, you can choose a different flavour for each tier if you wish. All our flavours are also suitable for cupcakes. All our cakes are externally iced with my vanilla Swiss meringue buttercream. The cake can be iced to create either a semi-naked or fully coated look, or can even be applied using various textures. I mainly decorate my cakes with fresh flowers, fresh fruit and macarons. As each of our cakes are completely unique, the decorations will be carefully chosen to compliment the theme and ideas you have provided us. Collating some images is always helpful... please feel free to check out our previous wedding and celebration cakes displayed on our website or Instagram page @themaplewoodbakery for more inspiration!
